

Handicap improvement

An archery handicap helps to gauge an archer's progress. It is a number between 0 and 100, and helps to indicate the ability of an archer. The lower the handicap the better the archer. A novice usually starts out with a high handicap, which reduces as they post better scores. To achieve a handicap an archer must shoot at least three rounds.

Handicap scores are also used in some competitions so that scores can be adjusted and archers with different levels of experience can compete on an equal footing.

Our latest club handicap improvement scores are as below.

	Class	Date Shot	Start Handicap	Final Handicap	Change
Maureen Miller	Compound	15/01/2017	37	29	8
Anoosh Liddell	Recurve	04/12/2016	45	38	7
Tom Banton	Barebow	29/01/2017	61	56	5
Peter Burford	Compound	11/12/2016	30	25	5
John Mooney	Recurve	20/11/2016	58	53	5
Alex Oldfield	Compound	18/12/2016	38	34	4
Damir Pongrac	Compound	04/12/2016	18	14	4
Adrian Currall	Recurve	08/01/2017	27	23	4
Graham Kates	Recurve	29/01/2017	43	39	4
James Mooney	Barebow	27/11/2016	70	67	3
Clive Mulligan	Recurve	29/01/2017	48	45	3
Manish Popli	Recurve	20/11/2016	46	43	3
Kieron Lehmann- Mayne	Recurve	18/12/2016	33	31	2
Peter Harvey	Barebow	11/12/2016	63	62	1
